

## Smith Brothers Farms Cheese of the Month MARCH

### NETTLE MEADOWS KUNIK

#### FLAVOR PROFILES:

Clean and creamy, this cheese is made from 75% goat's milk and 25% whole Jersey cow cream (the breed of cow with the highest butterfat content). Rich but not heavy, very buttery, with a slight goat cheese taste.

#### FOOD & DRINK PAIRINGS:

Fruity, bubbly roses, wheat beers, and pinot noir. Kunik best shines in a cheese plate with sharper cheeses, salty cured meats, and pickled vegetables. It also pairs well with a slice of mango or gingersnap cookie.
